

Student scholarship under the NCN-OPUS project
Applications of graph and higher-rank graph algebras
in noncommutative geometry

Requirements: The NCN scholarship may be awarded to a person who meets any of the following criteria: **a)** is a student of: first-cycle, second-cycle or uniform master's studies at universities in Poland; **b)** is a PhD student enrolled in doctoral studies; **c)** is a PhD student at a doctoral school. The requirements for this contest are as follows:

1. Education: at least a bachelor's degree or being a student of the 4th year of uniform master's studies in the fields of mathematics, computer science or physics.
2. Experience with directed graphs and their algebras, the basic knowledge of operator algebras and K-theory.
3. Fluency in English at a level enabling both oral and written communication as well as reading professional literature.
4. Motivation for further learning and expanding professional skills.

Job description:

1. Scientific collaboration in the field of directed graphs and their algebras with particular emphasis on K-theory. If possible, the collaboration should lead to a joint scientific publication in this field of research.
2. Participation in scientific seminars organized by the Principal Investigator of the project.

Further information: This scholarship is in the amount of PLN 1,200 per month gross, paid for 10 months from April 7th 2025 to February 6th 2026.

Applications should be sent only by e-mail to the address pmh@impan.pl by **April 3rd 2025** at the latest. If you do not receive confirmation of receipt of your application within one business day, please contact the Institute of Mathematics of the Polish Academy of Sciences (22 5228100, im@impan.pl) immediately.

The application should include PDF files containing:

1. A current curriculum vitae with a list of publications, if any.
2. Scan of the certificate of being a student / doctoral student.
3. Motivation cover letter.
4. Standard consent to data processing (GDPR).
